

Hands-on Exercise No. 3
DigiSkills 3.0 Batch-04
Cloud Computing

Total Marks: 10

Due Date: 24/09/2026

Instructions:

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solution.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
 - It is submitted after due date.
 - It is not in the required format (.doc or .docx)
 - It does not open, or file is corrupt.
 - It is copied (partial or full) from any source (websites, forums, students, etc.)

Learning Outcome:

After completing this exercise, you shall be able to:

- Understand the basic purpose of IAM (Identity and Access Management).
- Create an IAM user with console access.
- Sign in using the new IAM user credentials.

Problem Statement

Using the root user for daily tasks is not a security best practice. In this exercise, you will create a new IAM user so that you can manage AWS resources safely without using the root account. This is an essential step for secure cloud account management.

Task 1: (8 Marks)

1. Sign in to the AWS Management Console.
2. Navigate to the IAM service.
3. Create a new IAM User (name it e.g., trainee-admin).
4. Enable AWS Management Console access for the user and set a custom password (or auto-generate one).
5. Review and create the user.
6. Sign out from the root account.

Task 2: (2 Marks)

1. Sign in again using the new IAM user credentials (Account ID, Username, and Password).

Note:

1. Create an MS Word file with screenshots of all the above-mentioned tasks.
2. We will analyze your solution based on the steps that you will perform.

BEST OF LUCK ☺

How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
